Three exhibition segments for a comprehensive range of products and services

interzum is divided into three established topic areas:

- 1. Function & Components:** In this segment, the industry presents technologies designed to meet increased customer expectations in terms of technology, energy efficiency and comfort. Fittings, lighting systems and semi-finished products for furniture and furniture components will be among the items exhibited.
- 2. Materials & Nature:** Sustainable resources and innovative materials are presented in this segment, including wood, veneers, parquet flooring, decorative surfaces, decorative paper, wood-based materials and laminates, edging and surface treatments.
- 3. Textile & Machinery:** This segment showcases innovative ideas and high-quality materials from quality leaders and innovation drivers at various stages of the value chain. These include machinery for upholstery and mattress manufacture, upholstery materials, cover fabrics, leather and adhesives.

This structure brings the players along the value chain into close contact with each other and gives exhibitors and visitors a good overview.

As the leading international trade fair for furniture production and interior design, interzum is the central communications hub for the design of tomorrow's living spaces and work environments - making it the perfect place to give the entire furniture industry new momentum. The Koelnmesse team is already looking forward
