INTERMOT 2022: WORLD OF eNNOVATION presents innovations for smart technologies

Test modern mobility on the ePARCOURS

It's time once again from 4 to 9 October 2022: INTERMOT, the international motorcycle and scooter trade fair, will then open its doors in Cologne. As an important and leading international business and event trade fair for the world of motorised two-wheel vehicles, INTERMOT 2022 is starting with a future-oriented concept that combines the tried and tested with innovative segments and activities. Under the overriding theme "WORLD OF INTERMOT", the most important segments will be brought to life and depicted in six "worlds". At the WORLD OF eNNOVATION, everything thus revolves around e-mobility and visionary technologies. Modern mobility on motorised two-wheel vehicles has long since become more than a vision for the future, and all motorcycle and scooter fans who are interested in alternative propulsion and smart technologies will find the corresponding solutions and models at INTERMOT 2022. The WORLD OF eNNOVATION shows, for example, how visionary technologies can be used to improve your motorcycling experience. From smart safety technologies like riding assist systems and app & smartphone integration to eFuels.

State of the art technology provides practical solutions for everyday use - evident in the WORLD OF eNNOVATION with, among other things, Black Tea Motorbikes, the University of Applied Sciences Darmstadt, Horwin, Ilafa, Solevtric, Ridelink or Zero. From Zero, Black Tea Motorbikes, Horwin and Ilafa, motorcycle fans will see cool and high-quality electric motorcycles and electric scooters. Solevtric presents intelligent assistants and innovative cameras, while Ridelink will show the latest connect apps and WingMan modules. The University of Applied Sciences Darmstadt is represented in Cologne with an interdisciplinary research project dedicated to the development and testing of new technologies in the field of e-mobility. The GAUSS electric motorcycle presented at INTERMOT is equipped with a quickly exchangeable battery system that can be replaced with a fully charged system within a few seconds.

One can also directly try out and test many innovations live, because the motto on the ePARCOURS of INTERMOT is: completely energised - with smart e-mobility! Here you will find models ready for test rides - pedelecs, electric kick scooters or scooters. For many of the vehicles you don't even need a driver's licence at all.

The IVM logo, featuring the letters "IVM" in a bold, blue, sans-serif font. To the right of the letters is a blue, stylized graphic of a motorcycle's front fairing and headlight area. Below the logo is the text "Industrie-Verband Motorrad Deutschland e.V." in a smaller, blue, sans-serif font.

Industrie-Verband Motorrad Deutschland e.V.

About INTERMOT 2022:

From 4 to 9 October 2022, the latest motorcycles, e-bikes, scooters, e-scooters, as well as the most important new products in electric mobility, accessories, clothing, parts, heritage, customising, travel and workshop equipment will be showcased on the Koelnmesse exhibition grounds. While 4 and 5 October 2022 are reserved for business and intensive meetings and discussions for the trade, from 6 October 2022, the event is open to all motorcycle enthusiasts to discover the highlights of the world of motorised two-wheelers.

Koelnmesse - industry trade fairs for the mobility segment: Koelnmesse stages INTERMOT and THE TIRE COLOGNE, two major international trade fairs in the mobility segment, hosted at its trade fair grounds in Cologne/Germany. From 2022 Koelnmesse will expand its portfolio with polisMOBILITY, a new hybrid event that shows how mobility in cities can and must be designed in the future. Alongside tires and wheels, THE TIRE COLOGNE focuses on equipment for motor vehicle servicing and tire fitting centres and presents a comprehensive range of products and services for tire retreading and the recycling and disposal of old tires. INTERMOT is the show for motorised two-wheelers and presents the key innovations in electromobility, accessories, clothing, parts, customizing, touring and workshop equipment. The events serve as central, international business platforms, bringing the industry together with a carefully targeted approach to showcase the latest products, developments and innovations.
