Most important international industry event after the Corona pandemic

Special edition: Alongside the physical trade fair, the digital platform AnugaFoodTec @home offers additional exposure

The number of registrations remains high

Anuga FoodTec, the International Suppliers Fair for the Food and Beverage Industry is also recording an excellent number of registrations for the new venue date from 26.-29.04.2022. As the most important international industry event after the Corona pandemic, Anuga FoodTec offers the food and beverage industry an ideal information and ordering platform for all sections of the production, processing and packaging. Anuga FoodTec has already convinced numerous market leaders, medium-sized and smaller companies for the 2022 event with this concept.

The companies that have already registered for Anuga FoodTec 2022 include among others Air Liquide, Albert Handtmann Maschinenfabrik GmbH & Co. Due to the digital platform AnugaFoodTec @home being staged parallel to the physical trade fair, the exhibitors will benefit from an effective, digital expansion of their trade fair presence. The innovative format offers networking and contact options primarily also with those visitors and interested parties, who will still not be able to travel to the extent desired in the coming year.
